ISEA2017

23rd INTERNATIONAL SYMPOSIUM ON ELECTRONIC ART
XVI INTERNATIONAL IMAGE FESTIVAL

CREATIVE CALL

1. Title

Peace Within Our Marine Ecosystem

2. Organizers and presenters' names and affiliations

From University of California, Davis.
Name: Tinsley Huo.

3. URL of the demo website or video

https://tinsleyfok.github.io/des157/ISEA/index.html

4. Abstract (ready for diffusion). 200 words maximum.

My goal is to develop a website prototype that shows our beautiful marine ecosystem and remind browser to protect our marine ecosystem. This website will acknowledge the viewers the damages in our ocean and show the way how to protect our marine ecosystem, and use a more vivid way to remind human to pay attention on the ocean peace.

5. General description of the Project

The website will divide into two parts: background story and animation. In the background story part, Viewers can view the general information about marine damage and the way to protect the ocean. In the animation part, the website will show the animation about the marine ecosystem, using Three.js to make interaction between the website and the viewers.

6. Category. ISEA2017 artistic call convenes to participate in five categories, please select one: Soundscapes, Exhibitions, Installations and Performances, Media Art (Video, Animation, Net Art), Film-and-digital and Design Cases.

Media Art (Net Art)

7. Technical Rider. Please provide the requirements (technological equipment, materials and characteristics of space for all categories of this call)

Since it is just a website, it will only need laptop and screen that can show my website.

8. Biographies of the Author(s).

Tinsley is an undergraduate student from UC Davis, double majoring in Design and Communication. Her interests are digital art and fashion design. She enjoys exploring designs incorporating with high-technology and art.
